

Cool Max

Motion Intelligent bed with cool comfort

Cool Max has the controllable comfort of a Motion Intelligent bed with the added advantage of a mattress which has specially engineered fibres producing fabrics that are soft, breathable and moisture wicking, to keep you cool in the summer and warm in the winter. Perspiration is one of the body's natural mechanisms to stay cool, but Coolmax fabric is engineered with special technology to wick moisture and enhance drying, helping you to stay dry and comfortable and feel energised in the morning.

Mattress

- Unique CoolMax fabric guarantees a sublime night's sleep because it keeps you cool, dry and comfortable in the summer and warm in the winter
